Section Skill Analysis

Section 1: AI-evaluation: Speaking (General)

Total Score: **12.47 / 20** Time Taken: **10 min 14 sec/15 min**

Question Analysis:

Total Question: **2** Skipped: **0** Not Answered: **0**

CEFR Level  **INDEPENDENT USER**

Can express themselves clearly without much sign of having to restrict what they want to say. Has a sufficient range of language to be able to give clear descriptions, express viewpoints and develop arguments without much conspicuous searching for words/signs, using some complex sentence forms to do so.

Q.1 

Skills	Skill Score	Weightage
Phonological Control		
Can generally use appropriate intonation, place stress correctly and articulate individual sounds clearly; accent tends to be influenced by the other language(s) they speak but has little or no effect on intelligibility	67.76%	15%
Grammar		
Communicates with reasonable accuracy in familiar contexts; generally good control, though with noticeable mother-tongue influence. Errors occur, but what they are trying to express is clear. Uses reasonably accurately a repertoire of frequently used "routines" and patterns associated with more predictable situations.	55%	20%
Comprehension		
The ideas presented are relevant to the topic and are presented in sequence. The ideas presented are elaborated on with a blend of simple and complex/compound sentences.	75%	15%
Vocabulary		
Can understand and use the main technical terminology of their field, when discussing their area of specialisation with other specialists. Has a good range of vocabulary for matters connected to their field and most general topics. Can vary formulation to avoid frequent repetition, but lexical gaps can still cause hesitation and circumlocution. Can produce appropriate collocations of many words/signs in most contexts fairly systematically. Can understand and use much of the specialist vocabulary of their field but has problems with specialist terminology outside it.	65%	30%

Skills	Skill Score	Weightage
Fluency Can express themselves with relative ease. Despite some problems with formulation resulting in pauses and “cul-de-sacs”, they are able to keep going effectively without help. Can keep going comprehensibly, even though pausing for grammatical and lexical planning and repair is very evident, especially in longer stretches of free production.	49.22%	20%

Note: Only average percentage will be displayed for AI Written/ Spoken Evaluation question type.

Q.2

Skills	Skill Score	Weightage
Phonological Control Can employ the full range of phonological features in the target language with sufficient control to ensure intelligibility throughout. Can articulate virtually all the sounds of the target language; some features of accent(s) retained from other language(s) may be noticeable, but they do not affect intelligibility	70.12%	15%
Grammar Communicates with reasonable accuracy in familiar contexts; generally good control, though with noticeable mother-tongue influence. Errors occur, but what they are trying to express is clear. Uses reasonably accurately a repertoire of frequently used “routines” and patterns associated with more predictable situations.	55%	20%
Comprehension The ideas presented are relevant to the topic and are presented in sequence. (e.g., from the general to the particular to the universal). The content provided enhances the reader’s knowledge of the topic.	80%	15%
Vocabulary Can understand and use the main technical terminology of their field, when discussing their area of specialisation with other specialists. Has a good range of vocabulary for matters connected to their field and most general topics. Can vary formulation to avoid frequent repetition, but lexical gaps can still cause hesitation and circumlocution. Can produce appropriate collocations of many words/signs in most contexts fairly systematically. Can understand and use much of the specialist vocabulary of their field but has problems with specialist terminology outside it.	65%	30%

CEFR Level  PROFICIENT USER

Question Analysis:

Total Question: 2 Skipped: 0 Not Answered: 0

The text contains a broad range of complex grammatical structures appropriately and with considerable flexibility. The vocabulary used is appropriate and varied and the topic is well-elaborated on sequentially with various cohesive devices.

Q.1 

Skills	Skill Score	Weightage
Vocabulary Can understand and use the main technical terminology of their field, when discussing their area of specialisation with other specialists. Has a good range of vocabulary for matters connected to their field and most general topics.Can vary formulation to avoid frequent repetition, but lexical gaps can still cause hesitation and circumlocution.Can produce appropriate collocations of many words/signs in most contexts fairly systematically.Can understand and use much of the specialist vocabulary of their field but has problems with specialist terminology outside it.	75%	10%
Grammar Consistently maintains a high degree of grammatical accuracy; errors are rare and difficult to spot.	80%	20%
Orthographic Control The text is generally free of orthographical errors except for a possible missing hyphen or semicolon.	80%	10%
Thematic Development Can use the conventions of the type of text concerned to hold the target reader's attention and communicate complex ideas.Can give elaborate descriptions and narratives, integrating sub-themes, developing particular points and rounding off with an appropriate conclusion.Can write a suitable introduction and conclusion to a long, complex text.Can expand and support the main points at some length with subsidiary points, reasons and relevant examples.	82%	10%
Coherence & Cohesion The text uses a meaningful sequence of linked ideas relevant to the task, with adequate topic progression. Various cohesive devices link sentences appropriately into clear, coherent discourse.	78%	20%

Skills	Skill Score	Weightage
Comprehension		
The ideas presented are relevant to the topic and are presented in sequence. The ideas presented are elaborated on with a blend of simple and complex/compound sentences.	85%	30%
Note: Only average percentage will be displayed for AI Written/ Spoken Evaluation question type.		

Q.2 

Skills	Skill Score	Weightage
Vocabulary		
Can understand and use the main technical terminology of their field, when discussing their area of specialisation with other specialists. Has a good range of vocabulary for matters connected to their field and most general topics.Can vary formulation to avoid frequent repetition, but lexical gaps can still cause hesitation and circumlocution.Can produce appropriate collocations of many words/signs in most contexts fairly systematically.Can understand and use much of the specialist vocabulary of their field but has problems with specialist terminology outside it.	75%	10%
Grammar		
Good grammatical control; occasional "slips" or non-systematic errors and minor flaws in sentence structure may still occur, but they are rare and can often be corrected in retrospect. Shows a relatively high degree of grammatical control. Does not make mistakes that lead to misunderstanding. Has a good command of simple language structures and some complex grammatical forms, although they tend to use complex structures rigidly with some inaccuracy	65%	20%
Orthographic Control		
The errors are minimal enough not to interfere with intelligibility. The text contains the correct layout, but there may be a few errors in paragraphing and punctuation, such as commas and quotation marks.	60%	10%

Skills	Skill Score	Weightage
Thematic Development		
Can follow the conventional structure of the communicative task concerned when communicating their ideas.They can develop a clear description or narrative, expanding and supporting their main points with relevant supporting details and examples.Can develop a clear argument, expanding and supporting their points of view at some length with subsidiary points and relevant examples.Can evaluate the advantages and disadvantages of various options.The text clearly differentiates between fact and opinion.	70%	10%
Coherence & Cohesion		
The text uses a meaningful sequence of linked ideas relevant to the task, with adequate topic progression. Uses various cohesive devices to link his/her sentences into clear, coherent discourse, but not always appropriately.	75%	20%
Comprehension		
The text does not contain diversions and is relevant to the topic provided. The ideas introduced are few but are elaborated on using simple language.	70%	30%

Note: Only average percentage will be displayed for AI Written/ Spoken Evaluation question type.

Difficulty Level Analysis

Level	Number of Questions	Correct Attempts	Correctness
Easy	10	9	90%
Medium	5	5	100%
Hard	2	2	100%

Proctoring Analysis

Image or Video Proctoring is not enabled for this test.

Images Captured: 99

Image Violations: 0

 Image violations detected, within tolerable limit.

Multiple Faces Detected	0
No Face Detected	0
Unrecognized Face Detected	0

Note: The total violations are based on the custom violation settings for this test. The number of consecutive images considered as one violation is configured for all the categories (Unrecognized Face, Multiple Faces, No Face) and may differ from the default settings.

Window Violation: 0

Time Violation: 0 min 0 sec
